Raleigh Bicycles

C.C.M. Bicycles

Evinrude Outboard Motors

From small beginnings over fifty years ago, these three trademakers have become famous all over the world. There must be a reason. That reason is obvious. They have brought you the finest bicycles and outboard motors you can buy. For work and play, these products are made of the finest materials available, to stand the most severe conditions found anywhere.

We maintain a complete and efficient repair and service department. We carry a complete stock of repair parts for almost any make of bicycle, and repair all makes of bicycles, tricycles and outboard motors.

A complete mail order department takes care of our out-of-town customers from coast to coast. All orders receive prompt and efficient attention. To avoid mistakes, write your order plainly, giving name and part number of goods required. When in doubt, send in samples. They can be returned and you are sure to get the correct article.

Be sure your name and address are on the order. This is important. Full cash should accompany all orders. This saves time and C.O.D. charges. All catalogue prices are F.O.B. Winnipeg, with the exception of new bicycles and Evinrude motors, which are shipped prepaid. Be sure to include enough money for postage. Any excess will be returned.

The prices in this catalogue are subject to change without notice. Changes will be made only when absolutely necessary.

For references, see The Canadian Bank of Commerce.

C. H. Harness

Specialists in Minor Repairs or Complete Overhaul for all makes of Bicycles, Tricycles and Outboard Motors.

Thistle Tricycles

910—Suitable for two-year-old, with 10" front wheel.
Price Each **10.50**

Thistle Wagons

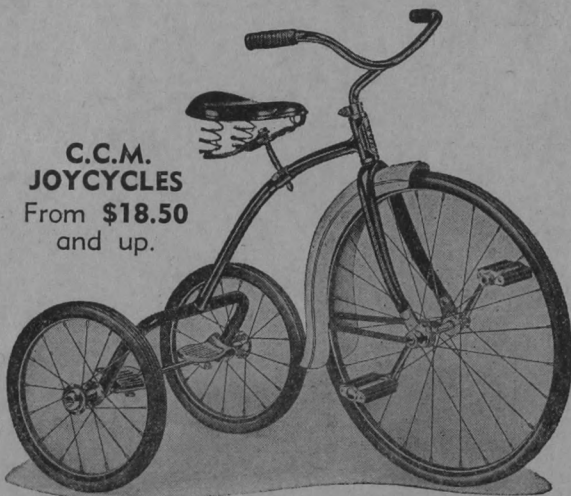

35" wooden box with nylon bearing wheel.
Price Each **12.95**

IMPORTANT

We are authorized dealers and service C.C.M., Werlich, Sunshine and Thistle Tricycles. We carry a complete stock of parts for all models. Send in samples to be sure of correct part when ordering.

Space does not permit us to list all the parts we carry in stock. We stock B.S.A. 3-speed hub parts and controls, brake cables, etc., for Raleigh and other English racing bicycles. We also stock bicycle frames in all sizes and models for C.C.M. and Raleigh.

1374—Small jar Each .15
1375—Large jar, 2 1/4" x 3" .. Ea. .25

"SOLDERIT"

PASTE SOLDER

"Solderit" can be used anywhere ordinary solder is used for light soldering.

It is exceptionally useful for soldering wires together, to form a tight, strong joint, such as in radio, refrigeration and all other electrical joints.

Also very useful for soldering light metal. To use "Solderit", just apply a little of the paste to the parts to be soldered, place them together, and heat the joint. For small operations, such as wiring, the heat of an ordinary match is sufficient.

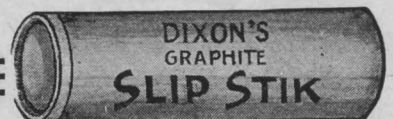

Put up in 2-ounce tubes, with a screw cap, it is very handy to use, and cannot evaporate or dry in the container.

Price per tube50

DIXON'S GRAPHITE

Jumbo Size

The best known lubricant for bicycle chains. Suitable for auto door sticking plates and locks, etc. Supplied in sticks Each .45
